Hit-Run Trucker Is Sought

10-Year-Old Boy Dies After Being Struck by Truck

City police are seeking the driver of a hit-run truck which Thursday afternoon caused the tragic death of 10-year-old Gerald Elwood Shalin, 11018 83 St. West. Last night after the youngster had started to home, he was struck down as he rode his bicycle on 112 avenue. He was lying in the street as he died for his mother prepared to leave to avoid the hit.

A few minutes earlier he had come home from school to find his mother. Five minutes later, he was found dead.

The last thing I told him before he left was to ride carefully on his bicycle," his mother said.

THROWN UNDER SWEEPER
Witnesses stated he was passing a motor street sweeper proceeding east on 112 avenue just the corner of 107 street. Later was passing a parker. As approaching from the opposite direction were two cars. As they drew abreast the sweeper one pulled out to pass and struck the boy, throwing him beneath the sweeper.

Sweeper was driven by Joe Berger, 10198 92 street.

The death vehicle was going about 40 miles an hour, said John Gabriel. After striking the boy, the truck increased speed and disappeared down 112 avenue.

SKULL FRACTURED
Arriving on the scene of the accident, Chief Constable Reg. Desjardins took charge. The boy was rushed to Royal Alexandra Hospital where he was found to be suffering from a fractured skull and lacerations.

He died eight hours later. Gabriel described the hit-and-run truck as follows:

It was an older model red cab and had unpainted box body on end of truck.

It was a police force vehicle. It was a truck driver. It was a truck driver. It was a truck driver.

2 Men Are Held In Murder Here

Wild Chase Ended By Police Shots

3 Shoplifting Charges Face Ex-Mental Patient

Wild chase through city streets was halted by two shots fired by a city police officer early today. Arrested and charged on three counts of shoplifting was Roy Hodges, 18, recently discharged from Oliver Mental Institute.

Hodges, said to be staying at a downtown hotel, was caught by Constables Jones and Vaughan on 103 street, a half block south of Jasper avenue about 3:15 this morning, when officers noticed truck Hodges was driving carried no license plates.

Hodges leaped from the truck and ran for Jasper avenue, the constables in hot pursuit.

CARS JOIN CHASE
Three squad cars joined the chase. Police lost Hodges north of Jasper avenue but picked up his trail again on 102 street. He was walking casually along the street, heading in direction of CNR station.

Hodges broke into a run, leading the police a merry chase through back alleys to the CNR tracks. Two shots fired in the air by Constable Fedoruk ended chase on CNR platform.

Police found a cash register in the back of the truck. Hodges, police said, admitted stealing cash register from Merrett Drug store, corner of 109 street and 82 avenue. The truck was stolen from Excel service station, 10603 82 avenue.

Hodges appeared in city police court this morning.

One Faces Charge For Axe Slaying

An army veteran is charged with murder and an Edmonton railroad worker is being held by police as a material witness following one of the most brutal killings in Edmonton history.

Victim is believed to have been buried alive by his attacker.

Michael Joseph Hayes, alias Thomas Lee, about 40, of 9003 137 Street, is in RCMP custody here charged with the ax-slaying and another Thursday morning of William W. McKay, 59-year-old warehouse worker, of 9003 Jasper avenue.

In custody of city police, held as material witness, is Al "Buster" Robbins, about 40 years old, a railroad worker. Robbins was arrested at Moon Lake, about 60 miles west and south of Edmonton, near Seba Beach.

Robbins has been remanded in custody until July 9.

Police believe McKay was hacked to death with an axe as he lay sprawling in a shallow grave, his hands reaching up through loose dirt thrown over him.

It is thought the slain man was dragged to the yard and buried beneath a pile of earth, left for dead after being attacked with a heavy length of steel pipe.

McKay's attacker, it is thought, later noticed his victim's struggles as he lay in the backyard trench.

Little Rain Mars Holiday For Province

Alberta's Dominion Day holiday was rainless in most parts of the province.

Very light showers fell in northern Alberta to aid fire fighters in battling forest fire outbreaks in the area.

But in crop districts where crops are short and patchy as a result of prolonged drought, skies were clear. High winds in central Alberta caused some dust blowing and soil drifting.

WHITCOURT FREEZES
Overnight temperatures dipped four degrees below freezing at Whitecourt, 100 miles northwest of Edmonton, but no crop damage was reported.

Jasper recorded 33 degrees, and at Grande Prairie, in Peace River district, where crops are better than in any other part of the province, the mercury hit halted at 33 degrees.

Edmonton's overnight low was 38 degrees.

Cooler weather and light rains helped curb the forest fire menace in Northern Alberta and no new fire outbreaks were reported.

Crews held at least 30 blazes, including since last week, under control.

SHOWERS FORECAST
At Cold Lake, 175 miles northeast of Edmonton on the Saskatchewan boundary, a serious fire is now well in check and is no longer considered dangerous.

Forestry officials at Edmonton said today most crews in the area have been laid off as the fire situation improves.

Light showers are forecast for Edmonton district.

Skins will be cloudy, clearing this evening and temperatures will be lower than yesterday's.

Special Gas Session To Open Monday

Legislative chamber of provincial House will open Monday afternoon for a four-day discussion of Alberta's natural gas export and oil conservation.

The special session, called to enact legislation made necessary by heavy export demands on the province's natural resources, will be a miniature of a regular session.

SPEECH FROM THRONE
It will open with the reading of the speech from the throne by Hon. J. C. Bowen, Lieutenant Governor, at 3 p.m.

Instead of the usual lengthy document, the Throne Speech is expected to be about two or three paragraphs in length.

Clayton Adams, Social Credit MLA for Edmonton, will move acceptance, and Peter Chubb, Social Credit MLA for Redwater riding, will second the motion.

From there, Mr. Adams will move into a discussion of six bills covering natural gas export and oil conservation in Alberta.

4 DAY SESSION
Draft of the six bills, chief of which makes licensing of gas export companies by area provincial government mandatory, were released to the public earlier by the session.

The session is expected to last four days, but no legislation other than that provided in the six bills will be introduced.

Gov.-General Tours North

OTTAWA, July 2.—(CP)—Viscount Alexander today took off in a North Star aircraft for a week's visit to Canada's northern areas.

Field Marshal Lord Altonbrook, former chief of the imperial general staff, will join the governor-general's party at Winnipeg.

They plan to inspect defence installations at Churchill, Man., Coral Harbor on Southampton Island, and four centres in the Yukon and Northwest Territories.

Viscount Alexander will be accompanied throughout the trip by Brig. Geoffrey Walsh of Brantford and St. Catharines, Ont., area commander at Kingston, Ont., and for the commander of the Northwest Highway system.

Dogs Taken Off Search For Boy
VAL D'OR, Que., July 2.—(CP)—Searchers continued today to look for Quinn Grey, 16, missing in the dense bush north of here for eight days, but they were without the two bloodhounds being used in the hunt.

One of the dogs became lost last night but turned up on the high ground early today. The dog was taken to the log shelter where his mate is being kept after becoming ill yesterday.

A sound crew was on hand to record the ceremony for Colby's county fair radio show next Saturday night.

Most of the town had the time of its life. But there were tears in the eyes of tall, thin, 37-year-old J. H. Marsh as he leaped on his cane and watched the celebration.

"It's terrible," he said.

Horses Bolt Stable Fire

HALIFAX, July 2.—(CP)—Thirty-five year-old horses, some with their coats ablaze, were led from a flaming stable here early today.

One of the horses died from burns. Another suffered serious burns but will probably recover.

Many of the horses bolted after they escaped the building, stable of Halifax Riding and Driving Club and galloped through city streets and across Citadel Hill. It was hours before they were all rounded up.

Among the burned horses were mounts of Halifax Junior Benet's, now polishing their famed musical side for presentation at Canadian National Exhibition, Toronto. The 36 Lancers were to receive their colors today from Lord Cornwallis.

FISH TOWS FISHERMEN

CAMPBELLFORD, Ont. July 2.—(CP)—A 49-pound sturgeon yesterday towed a boat in the Trent River, giving two United States fishermen a 45-minute ride. Hooked by Edward Brown of Alliance, Ont., with a 12-pound test line, the fish battled for more than an hour before Brown landed it with the aid of Donald Phillips, also of Alliance. The sturgeon measured four feet, 10 inches.

TOWN CHANGES NAME

MOHILL, W.Va., July 2.—This town's 38 residents made a mountain out of a molehill today. They dragged down the sign in front of the postoffice that read Mohill, W.Va., for the last 32 years and named Mountain, W.Va. in its place. Some 2,000 mountaineers from as far as the Ohio river 20 miles away trooped over the hills in their sun bonnets and Sunday shoes to listen to the oratory and see the name.

There was a traffic jam in front of Raymond's general store that sent chickens, cows and children in all directions.

Moehill's last day was the biggest it had ever seen.

Sherman Ridgewood shipped his 1935 Model T Ford coupe with its red wooden wheels around a curve in the mountain town soon after sunrise. It was a wild wheelie ride around the bend in the new road that replaced the snake path through the hills as part of the benefits Moehill gets for changing its name.

The road was widened, levelled and the underbrush cut away for the arrival of Sen. Harley M. Augors, Gov. Okey L. Patterson

Army to Train At Wainwright

1,000 Reserve Get 2 Weeks Of Home Armory Training

Two weeks of practical summer training at Western Canada's largest camp will commence Monday for more than 1,000 reserve force personnel at Wainwright military camp.

Major Gen. M. H. S. Penhale, General Officer commanding Western Canada, will personally supervise summer training. Senior officers will direct training and administrative activities.

Brig. R. Coleman, reserve force officer commanding Alberta's 18th Infantry Brigade, will direct special wing which will carry out officer training.

AT WAINWRIGHT
Trains from British Columbia, buses, convoys and trains from all parts of Alberta will converge on Wainwright area Sunday as preparation for Monday opening.

According to forecasts, largest group of soldiers in camp will be men from Royal Canadian Armoured Corps. More than 75 armoured vehicles will be available for training.

Heavy Sherman tanks, armoured cars and light gun carriers will carry out exercises over the 8,000 acre training area.

EVERYTHING OPEN
This year for the first time all of the 110 buildings in camp area will be open. Buildings in camp area formerly housed guards and prisoners of war.

Exhibition Gets Face Lifting
Edmonton's exhibition grounds are undergoing a \$30,000 face lifting in preparation for the annual fair which will be held July 18 to 23.

Buildings bereft of paint throughout the war and immediately after war period are now gleaming with color as thousands of gallons of white and red paint are being sprayed on them.

Tax Collections Show Increase
City tax collections to the end of June totalled \$7,783,310, an all-time record, compared with \$5,320,341 for the six months period ended June 30, 1948.

This is an increase of \$2,462,969. Collections during June this year were \$1,261,629.22 compared with \$1,749,966 for the same month last year.

Special facilities are being arranged for spectators at the Bulletin Junior Air Show.

Representatives of the Edmonton Junior Chamber of Commerce will show motion pictures and Robertson orchestra will assist in community singing.

Drought Here Never Worse

Drought conditions in the Edmonton district were never worse than they are this year.

Dominion Meteorological Office here reported today June precipitation was the lowest on record, and less rain fell during the months of April, May and June than in any previous spring for 54 years.

Only 45 inches of moisture was recorded at the weather office here during the entire month of June.

Normal rainfall is 3.32 inches for the month.

RECORD SET
Drought conditions set a record over previous dry years—1885 when 40 inches of rain were recorded during June, 1919 when 87 inches were recorded and 1937 when 9 inches were recorded.

Since April 1 this year only 3.04 inches of rain have fallen as compared to a normal rainfall of 6.17 inches.

Labor Act Conference

Said Success

Alberta's first Labor Act conference was "remarkably successful," according to Mr. J. L. Robinson, provincial minister of industries and labor.

Representatives of labor and management met at the conference and discussed clause by clause the entire Alberta Labor Act.

Successful amendments on which representatives of both groups agreed will be drafted and submitted to the next regular session of the legislature for revision of the Labor Act.

Conference opened Monday and concluded Friday afternoon. It was attended by about 30 representatives of labor and management groups and delegates of the Chamber of Commerce and Canadian Manufacturers' Association.

"Labor and management groups clearly showed their ability to work together and to agree on many more points of labor legislation than was originally anticipated," Dr. Robinson said today.

Conference is the first of its type held in Alberta, and is the first understanding of its kind in Canada.

Labor and management groups expressed their appreciation to the industries and labor department for the opportunity of expressing their views at the conference before the session concluded.

Calgary Prepares Gas Rate Protest

North-South Parity Upset
By July 1 Price Increase

CALGARY, July 2.—(CP)—Calgary's three-man committee of natural gas experts was asked by city council Thursday to prepare a resolution for council's approval regarding legislative action which might be taken to restore Calgary district on a gas price parity with other parts of the province.

Members of the committee are L. H. Fenerty, K.C., Stanley J. Davies and K. J. Morrison. Council met to discuss the June 24th announcement by the board of public utilities commissioners that effective July 1, gas rates paid by consumers in Calgary and district will be raised approximately 66 cents a month. The committee also presented a report on proposed legislation to be considered at a special session of the Alberta legislature starting Monday.

PARTY DISRUPTED
The city of Calgary is intensely interested in creating and maintaining a balanced economy, and the committee is convinced that some means must be found to restore parity heretofore enjoyed between northern and southern portions of this province, with respect to use and benefits of natural gas, and which has now been completely disrupted by legislative action, said Mr. Fenerty in the committee report.

"We feel that the city should not have been placed in an inferior or not impossible position with reference to location of new and important industries, by legislative action, and now that this has taken place, that legislative action should be taken to restore it to parity with other parts of the province."

COMPARATIVE POSITION
Mr. Fenerty said the city is not concerned so much with the increase in the gas rates, but with the comparative position of the north and south parts of the province. At the present time there is a spread of six cents a thousand cubic feet for gas sold under comparative schedules in Edmonton and Calgary. Domestic gas rates in Edmonton were reduced from 25 cents to 20 cents a thousand cubic feet while rates in Calgary were increased from 25 cents to 26 cents a thousand cubic feet.

"We are going to have to do something, or we are going to be behind the eight-ball," said Mr. Fenerty. "The price spread shows that industries will not come to Calgary. One of the essentials of western economy is a balanced industry."

SUPPLY SOURCES DIFFER
Consumers in the north are served by the Northwest Utilities Ltd. at Edmonton, while those in the south are on the Canadian Western Natural Gas Co. lines, with headquarters in Calgary.

The Edmonton firm receives its gas from the Athabasca oil fields and gas areas in Kinleith-Viking field. The Calgary company buys its gas from Turner Valley gas fields and processors.

"Northwest Utilities Ltd. is not concerned with the competitive price of gas because they are going to get a regular return on their investment," said the expert.

RESERVES NEEDED
Mr. Davies was of the opinion that citizens of the south should have the same protection as citizens of Medicine Hat, where the gas is a public utility, or at Edmonton, where the company owns its own assets.

"These are dedicated to the people, but Calgary and Lethbridge are left high and dry. We need additional gas reserves dedicated to supply the Canadian Western Natural Gas Co."

RAIN HELPS LATE CROPS

BELLIS, July 2.—Seven-eighths of an inch of rain fell through this district during Wednesday night. It will revive all the later sown grain crops, and the gardens. Farmers have been discouraged, for the crops were short on account of lack of moisture.

Seba 'Teen Club Concludes Year With Banquet

SEBA BEACH, July 2.—Seba Teen Club has been one of the most active clubs at Seba this past year. The club activities have included a card party, a Christmas concert, the participating in the ice carnival, club dances, sleigh rides, house-parties, wienner roasts, picnics, cycling, and the purchasing of STC sweaters.

To terminate this successful year, a club banquet was held at the home of Mrs. L. Hathaway, at which the president of the club presented the leader with a lovely cup and saucer.

The club consists of leader, Miss Mary Sheridan, better known to club members as "Sherry", president, D'neen Hathaway, secretary, Bill Schuchel, and fourteen other members including the originator Ann Carlson.

The club's mascot is "Sir Herman" of Seba, a toy alligator donated to the club by Mrs. Canlon, which was christened at the Christmas concert. It was unanimously agreed that "Herman" be given to Sherry as a souvenir of the club at the banquet.

\$252 Million Surplus Reported by Abbott

OTTAWA, July 2.—(CP)—Finance Minister Abbott last night reported a surplus of \$252,331,000 for April and May—first two months of the current fiscal year. That was nearly \$3,000,000 less than the surplus for the same period of last year.

At the same time, he announced Canada's reserves of gold and United States dollars totalled \$97,000,000 at the end of June—an increase from the reserve of \$74,000,000 at the end of June last year but a drop from the reserves of \$1,057,000,000 held at the end of March this year.

PROFIT TRANSFER
He said in a statement the drop in U.S. dollar reserves was due to transfer of 1948 profits of foreign-owned companies in Canada. These companies were permitted to take their profits out of the country three months after the end of the fiscal year in which they were made.

The budget surplus resulted from expenditures of \$230,700,000 and receipts of \$483,000,000 during April and May. During the same period last year, expenditures were \$212,800,000 and receipts \$468,000,000.

Mr. Abbott said the large surplus for the two months could not be taken as an indication of the surplus for the whole year. May revenues of \$301,400,000 compared with \$271,800,000 last year did not reflect the tax cuts which came into effect earlier this year and were boosted by final settlements of 1948 income tax payments.

May expenditures were \$155,900,000, compared with \$146,200,000 for May, 1948, leaving a surplus for the month of \$143,500,000.

Mr. Abbott said the effect of the tax cuts on government income would not become apparent until budget figures for June are available.

TAX BIGGEST ITEMS
Income and corporation taxes were biggest items of revenue during the two months. Corporation taxes totalled \$91,700,000, income tax deducted at source was \$60,800,000 and other income tax collections amounted to \$155,900,000.

Biggest expenses were \$50,500,000 for interest on public debt, \$48,500,000 for family allowances and \$27,200,000 for veterans' veterans' affairs.

Polio Hits 5 Children In One Texas Family

DENTON, Tex., July 2.—(UP)—Mr. and Mrs. L. B. Meeker prayed today for their five children, all of whom were stricken with infantile paralysis at the same time.

The fearful parents are preparing for daily trips over the 30-mile distance to Fort Worth and Dallas, where the children are fighting for their lives in hospitals.

The eldest, James, 15, is doing "fairly well" at a Dallas hospital where he was taken Wednesday.

FEVER SUSPECTED
The other four children, Virgie, 13, Willena, 11, Mera Marie, 9, and Floyd Wayne, 7, were admitted to a hospital in Fort Worth Thursday. The family tried Parkland hospital in Dallas but it was overcrowded.

Of the four younger children, Virgie suffered the most serious attack but was reported early today in "fairly good" shape.

The couple has one other child, an 18-year-old married daughter, James was the first struck down by the disease. When first hit ten weeks ago, he was thought to have malaria fever.

His aunt, Mrs. F. A. Edmonson, said "he dragged around for a few days before doctors diagnosed him as polio." The eighth-grade was rushed to Parkland in Dallas, where 13 other polio patients are under treatment.

HOSPITAL CROWDED
Early this week, the other four youngsters began running high temperatures. The Meekers applied at Parkland's polio ward for their admission, but lack of room forced them to turn to city-county hospital in Fort Worth. Twenty polio victims are undergoing treatment there.

Mrs. Meeker, a 35-year-old housewife, spent the night in Fort Worth with relatives. She planned to visit the hospital first thing this morning, then journey 35 miles to Dallas.

The father, 35-year-old trucker and commercial fisherman at Lake Dallas, stayed in Denton. He expects to visit both hospitals today.

The Meekers have lived for the last 12 years in a rural area near Denton.

"They are awfully low up," Mrs. Edmonson said. "This awful thing has taken away almost all of their children at once."

Sir Francis Drake, the famous English sailor, commanded his first ship at the age of 12.

City Golfer Takes Lead At Red Deer

RED DEER, July 2.—R. E. Mack, of Edmonton, posted a 71 one over par to lead the qualifying round here on July 1 in the opening of the Central Alberta golf championship tournament.

There was an entry of 154 players for the start over the fine 18-hole course of the Red Deer golf and country club. Match play will go ahead in all flights on Saturday with semifinals and finals scheduled for Sunday.

Frank Hughes, 14, tournament secretary, Everything went along fine on Friday with perfect weather and the course is in good shape.

500 Melons Block Traffic
REDWOOD CITY, Cal., July 2.—(UP)—Five hundred watermelons broke through the plate glass against which they were stacked at a store yesterday and rolled into the street.

All but two dozen of the melons were so badly damaged they were a useless loss, said store manager Cleve Anderson. A garbage man hauled off the broken ones before the news reached the kids.

Dollar Question to Take Back Seat at U.K. Parley

LONDON, July 2.—(Reuters)—It seems increasingly obvious that the real issues to be discussed at the conference of commonwealth finance ministers this month will be sterling release and British budgetary retrenchment rather than dollar questions.

There is no in Britain and other commonwealth countries for further effort to earn and save dollars. But they all have been trying to do for at least two years.

It has been experience of all that mere ease of dollar imports in itself is sterile policy which aggravates rather than cures. It merely aggravates internal inflation.

GOVT SPEAKING
It appears observers today that some commonwealth finance ministers, spurred by a great body of opinion British and continental, might press the argument that the only solution is cut in government spending.

Britain's heavy returns for the first quarter of the year indicate that current and capital expenditures are exceeding budget estimates.

These advocates today that Britain's lost gold and dollars during the year just ended will prove to be a disaster. £106,000,000 (\$400,000,000) in £70,000,000.

Either this would be grave particularly although some of the forces we have caused this loss may perhaps may intensify during the next quarters unless vigorous action taken.

WALSH LIABTY DOWN
Whatever figure may be £40,000,000 will represent the reduction of gold liability since Britain has said that amount of the South Sea gold loan during the past year. Normally a reduction in liabilities would be regarded as offsetting a reduction in gold.

These remarks to South

Rev. A. D. Carr Leaves Jasper

JASPER, July 2.—Answering a call to Richmond Island Church, Luis Island, B.C., Rev. A. D. Carr, and Mrs. Carr and son Terry left Jasper by motor today. They will visit relatives in Fairview, Alta. for two weeks before going to the coast.

The vacancy in Jasper United church has been filled by Rev. Ian MacCrae, who has been doing mission work in Vanderhoof, B.C. for the past year.

Noted Methodist To Retire At 94

LONDON, June 30.—(CP)—Dr. John Scott Lidgett, 94, warden of the Bermuda Settlement since 1891 and a minister of the Methodist Church since 1876, is to retire shortly.

At 85, Dr. Scott Lidgett gave up wearing spectacles because he no longer needed them. A year later he defended the right of young people to dance on church premises.

Among other things he had been joint editor of the Contemporary Review, vice-chancellor of London University, president of the National Council of the Evangelical Free Churches of England and Wales, president of the Wesleyan Methodist Conference and president of the first united conference of Methodism.

As early as the ninth century books were engraved on stone; ink was spread on the forms and rough prints taken by hand.

"I KISS YOUR HAND, MADAME!" Living and loving dangerously, Errol Flynn is at his swashbuckling best in historical romance "Adventures of Don Juan," which started at the Capitol Theatre yesterday. Swedish actress Viveca Lindfors, also stars. Film depicts all lush panoply and excitement of Old Spain.

'Adventures of Don Juan' Comes to Capitol Friday

Swashbuckling romantic epic done in the grand manner is Warner Bros. technicolor romance, "Adventures of Don Juan," which started yesterday at the Capitol Theatre.

Leading Errol Flynn and Viveca Lindfors, the handsome film has all the sweep and grandeur befitting the story.

Only top-drawer talent has gone into the richly dressed picture. Result is a rich tapestry of moving spectacle, romance and adventure. Sly touches of humor also filter through the lusty tale.

HE'S IN TOP FORM
Flynn sports in top form as the legendary lover, swordsman and sometime savior of the throne of Spain.

Mia Lindfors, queenly in stately garb of breathtaking golds and velvets, makes a regal temptress.

Story itself is a well-told, romantic piece teeming with dashing, covering acts and opulence. Don Juan comes to the Spanish court with a reputation for romance. The queen really attracts him and when enemies close in Don Juan is there to protect her. There is a steady flow of romantic episodes, plus an intricate plot of court scandal and evil plotting.

FINE MUSICAL FRAME
Mar Sneider's musical frame is excellent, utilizing many Spanish themes for his score.

Vincent Safran's ace direction has captured many scenes of fabulous beauty.

Travilla and Leah Rhodes hand the mammoth costume chore on the production.

Find Ancient Pit
BRIGHINGTON, Kent, England — CP — Working between 1000, archaeologists excavated a 1800-year-old "ritual pit" in the cliff face near here. It was 22 feet deep and contained the skull of a horse, an ox, a boar, Roman-British pottery fragments, and hundreds of unopened oyster shells.

Inside Hollywood

By Bob Thomas

HOLLYWOOD. — (AP) — Los Angeles will have a new legitimate theatre, promises Gregory Peck.

This metropolis has long had there to help throw in the first

But one regular legit theatre, a group of stage-minded filmsters, headed by Peck, hope to alter that situation. They plan to build a playhouse in Beverly Hills.

"But it may take it a year," Peck said.

JOTTINGS
Joan Davis, making a film return to "Turned Up Toot," tells me she turned down a tempting television offer because it had to be done in New York.

Charles Bickford thinks "Whirlpool" will be his last picture for this year. Income tax, you know.

Puzzle of the week: How the screen writers guild named "Treasure of the Sierra Madre" as the best "western" of 1948. May be it should be classed a "musical" because Walter Huston did a jig in it.

Marie Lanza's next film will be "Kiss of Fire" with Ava Gardner and Kathryn Grayson. Big things are planned for the lady. Her studio has even been dusting off "San Francisco" for a possible remake with music.

Bob Hope is being urged by Simon and Schuster to compose another book, this one to be on Hollywood. The comic is toying with the idea.

There'll be a gala opening for the younger set next week. Jane Powell's Pa is opening another mail shop. Jane, Roddy McDowall and Claude Jarman, Jr. will be

Soviet Criticizes Trygve Lie Plan
LAKES, SUCCESS, N.Y., July 2 — (CP) — The Russians yesterday branded "The Secretary-General Trygve Lie" plan for a United Nations field service as "nefarious" and said they would oppose it energetically.

Lie suggested a field service force of 300 men to guard commissions and UN groups and a field panel of 2,000 men from which the UN could draw troops and police supervisors.

Baby Talks Welsh, Beaten By Father
CWMRAACH, Wales, July 2 — (CP) — The words that Ronald Jones could speak were Welsh.

That so angered the 25-year-old boy's father who only spoke English that he kicked and otherwise mistreated the lad. The boy had learned the Welsh words while living with a grandparent. The father was sent to prison for six months.

Ultra Modern Hotel in Leduc Will Serve Growing Town

Skyline's getting crowded in Leduc district where once only grain elevators punctured broad horizon. To west of thriving central Alberta town, oil derricks rise into

skies over one of the richest oil deposits in Canada, and in Leduc itself new structures like one shown here are giving town a modern, progressive appearance. New

Waldorf Hotel (Leduc) Limited, under construction only six months before it opened today, will serve trade of both growing town and expanding oil fields. Up to

date in every detail. New Waldorf promises to give a full measure of comfort to travellers and visitors in Leduc now and for many years.

Records Broken in Building Of the New Waldorf Hotel

Records were shattered when the New Waldorf Hotel (Leduc) Limited was under construction.

The pace at which the 30-room modern stucco and frame structure was raised was matched only by the rapid development of the new industrial centre which it will serve, the Leduc oil fields.

When basement frames of the New Waldorf were laid last January, the first of the fabulous wells in the Leduc fields were less than two years old. Already the town was filling with oil workers and their families, business men whose trades brought them to Canada's new oil centres, and representatives of activities allied to the increasingly important oil industry.

NEEDED FOR INFLUX

Leduc was crowded far beyond its facilities for even temporary quarters for such an influx of people.

The new hotel, of necessity had to be built at once—and built as rapidly as possible.

Today, less than six months after the building site at one of the main intersections of the town was surveyed, the hotel is open for business.

For is the New Waldorf hotel in

any respect temporary or makeshift quarters. Because the oil fields give promise of an even greater future than is presently known, and because the town of Leduc is more than likely to become one of the most famous of all oil centres, the new structure has been built to give permanent, long-lasting service.

FINE EXTERIOR

Its smooth, fluid lines, its wide windows and its use of glass broke give it an exterior appearance in keeping with present and future trends.

Unshaped and two storeys in height, it is constructed so that an additional guest wing can be added as the need becomes evident.

The interior is both functional and attractive in design.

From the main lobby, reached through a plate glass double door, the guest may enter the beverage room on the west wing or the coffee shop and spacious dining room on the east.

Horseshoe counter in the coffee

shop provides accommodation for 20 patrons, while in the dining room 50 guests may be served.

Both dining room and coffee bar are served from a large, immaculate white kitchen, equipped with refrigerator, steam tables, dishwashing machines and gas gloves.

Food supplies reach the hotel through a rear entrance, and may be brought directly to the kitchen or taken to the basement for storage. An automatic potato peeler is located at the top of the basement stairs for added convenience.

STAFF QUARTERS

Beyond the dining room, the lower rear floor of the east wing is utilized for staff quarters, providing a suite of rooms for the hotel manager, and private, well-furnished bedrooms for seven staff members.

The entire west wing has been used to accommodate a beverage room of unusually large proportions. Separate entrance is provided for men and for ladies with escorts.

All beverage containers receive thorough sterilization with an automatic glass washer, and drinks

supplied from a separate rear entrance are kept under cold storage until they are served, at which time they are refrigerated in a sweet bath as they are drawn.

On the second floor of the building reached by a staircase from the main lobby, 20 fully-furnished guest rooms are located. Six of the rooms have private baths, and each has running water.

BARBER, BEAUTY SHOPS

Among other special services which the hotel incorporates are separate barber and beauty shops on the main floor, adjacent to the rotunda, and a well-furnished public sitting room located at the head of the main staircase on the second floor.

Valuable recreational facilities are provided by a four-alley bowling room in the basement of the New Waldorf. Alleys are illuminated by indirect lighting, and noise is reduced to a minimum by sound traps in the ceiling of the bowling alley.

Improve Whispers

NEW DELHI—(CP)—The world-famed whispering gallery in the Gol Gumbaz monument at Bijapur is being repaired by the Indian government. The monument was built in 1656 by Sultan Mohamed Adil Shah. The gallery, 11 feet wide hangs 100 feet above the inside floor.

No Babies Affected By Diaper Inks Here

OTTAWA July 2.—(BUP)—No so far, officials of the health department of babies being affected by diaper ink here Wednesday, marking ink used on their diapers. "We have had no cause to issue have been reported in this country any warnings against using pa-

ticular dies or inks," one official found dangerous and told Canada said. "We are extremely interested about it, then, the department in the cases reported from Lake would issue a similar warning to Wales, Fla. but as yet we have hospitals in this country, he added, had no information from the American Medical Association about them." The dies used in marking inks are not controlled by the health department. Under the Food and Drugs Act, the dies used in food, If the AMA issued a warning drugs and cosmetics are controlled that certain types of dies had been by the department.

Leduc Moved Fast Into Prominence

Name of Town Familiar
Wherever Oil Is Discussed

As the oil and agriculture districts, the town of Leduc has, in less than three years, swept into national and even international prominence.

The town's greatest industrial assets are discussed, and wherever the achievements of modern industry are lauded.

Leduc, said to be the most modern town in the province, has been incorporated as the center of a new and far-reaching district where the future is bright and the future is bright.

40-YEAR ADVANCE
For more than 40 years it steadily increased in size and importance.

The town of Leduc, Alberta, is a town of 10,000 people, and is the center of a new and far-reaching district where the future is bright and the future is bright.

U.K. Teachers Attack Judges' References

LONDON, July 2.—(CP)—The British Teachers' Association has attacked the references made by the judges in the case of the two girls who were charged with the murder of their mother.

The association said that the references made by the judges were "unfair and unjust" and that they were "a gross violation of the principles of justice." The association also said that the judges had "shown a complete lack of understanding of the facts of the case."

Plucky Paralytic Drives Jeep in Prone Position

CHAMMAN, Man, July 2.—(CP)—You can't keep a good man down, they say, even if his handicap appears un-
surmountable.

Three years ago, when he was 22 years old, he was struck by a lightning bolt, and he has been paralyzed ever since.

But he has not let this handicap stop him. He has been driving a jeep in a prone position for the last three years, and he has won many prizes for his driving.

Young Canada Lawyer Starts Career at Top

By Norman Cribbens

LONDON, July 2.—(CP)—Ronald C. G. Wilson, a young Canadian lawyer, has started his career at the top of the legal profession.

Only nine months after graduation from Toronto's Osgoode Hall, he has gained the distinction of appearing in the traditional wig and gown before the law lords of the High Court in the British Commonwealth.

Wilson, 26, is a member of the Ontario Bar Association, and he has been called to the bar in both Canada and England.

South Africa Slashes Imports to Save Gold

JOHANNESBURG, July 2.—(AP)—The South African government has announced that it will slash imports to conserve gold reserves. The move is part of a broader economic strategy to deal with the global financial crisis. The government has announced that it will reduce imports by 10 percent, with the most significant cuts in luxury goods and non-essential items. This move is expected to save the country's gold reserves, which are crucial for its economy. The government has also announced that it will increase exports of gold and other minerals to offset the reduction in imports. The move is seen as a necessary step to ensure the country's financial stability in the current climate.

Rich Mine in N.Z. Now Worked Out

Big Gold, Silver Producer For 70 Years Closing Down

By J. C. Graham

WAIHI, N.Z., July 2.—(AP)—One of the world's richest gold mines is being closed down after producing about \$100,000,000 worth of gold and silver over 70 years.

This is the Martha mine which was responsible for and has sustained the prosperity of Waihi in the Bay of Plenty district of New Zealand. The mine reached its peak 40 years ago when it was producing nearly \$4,000,000 worth of gold and silver a year.

Since then the output has declined. Many times it seemed that the mine was doomed, but each time a new strike or payable reworking of old sections has postponed the day of "No more." Now, however, many miners are being laid off and the mine is expected to close within two months.

Discovered in 1838, the mine at Waihi was one of the earliest in New Zealand. It was worked for years by a small group of men. The mine was then taken over by the Government and worked for a number of years. It was then sold to private enterprise and has since been worked by a number of different companies.

MILLIONS IN DIVIDENDS.—Other mines in the region which brought thousands to the area in a search of gold produced almost nothing. The Martha mine, however, was a different story. It extended for great distances on 13 levels, some of them reaching a depth of 1,000 feet. The mine was a great producer of gold and silver, and its closure is a significant event for the region.

The decision has brought a close to the town of Waihi, which has nearly 4,000 inhabitants. It is not a mushroom settlement like many mining centres. Many of the miners have lived there most of their lives and own their homes. Determined efforts are being made to find work for them and prevent Waihi becoming into a ghost town like other former gold mining centres in New Zealand.

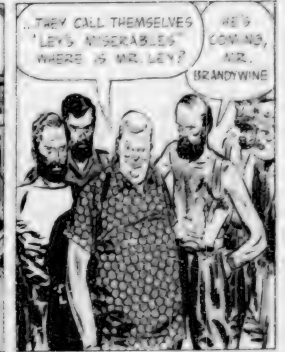

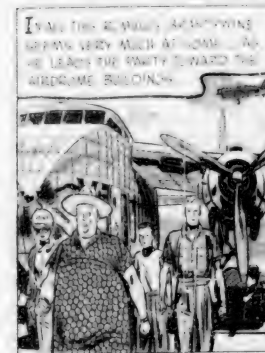

NO JOBLESS

The government has attempted and promised that there will be no unemployment. Temporary work is being found in State forest plantations, highway and government-subsidized herring works. Various efforts are being made to attract manufacturing industries to Waihi to use the labor available. Several factories are already being established and there are proposals that Waihi will take on a new mine, which has returned steadily less of life as an industrial town.

Courage Wins Day For Crippled Girl

BLACKPOOL, England, June 20 — (UPI) — Courage has won the day for a pretty singer Lillian Gyles. Handicapped by after-effects of poliomyelitis, she fought back for several years, but her determination to appear on the stage in a big show. Probably Britain's only crippled chorus girl she is singing in Noel Coward's "Bitter Sweet" at Blackpool's Grand Theatre. The latest stage-appearance is expected to reach London's West End later this year. Lillian, born in Newcastle-on-Tyne, was stricken with the disease when she was two years old. Her mother gave her every care and attention, but Lillian realized it she wanted to be cured she must help herself. At 17 she took up singing and developed an attractive soprano voice. After the war she went to London but, being still lame, was turned down by West End theatre managers. She managed, however, to obtain engagements as a solo variety-act. Then...

Right House Lot Is Cost Factor

Proper Site a Requisite To Satisfactory Living

Cost of constructing the house you want and, more particularly, its livability after completion will be influenced in large measure by the suitability of the building lot you purchase. To ensure satisfactory living accommodation, selection of a home-site must therefore be regarded by prospective home-owners as a basic requirement.

How much would you pay for a desirable building lot? Cost is dependent on numerous factors including the size of the lot, quality of the neighborhood, demand for land in the locality and existing services and other amenities. Generally speaking, a fully-serviced lot will require an outlay of between 10 and 15 per cent of the total house cost.

PARTICULAR ADVANTAGE

Of course if there is a particular advantage to a specific location, such as an exceptional view, cost will probably be in excess of these percentages. As with anything else, choice of a location is limited only by the prospective home-owner's financial ability.

Especially in municipalities where serviced lots are in short supply and expensive, prospective home-owners are sometimes inclined to purchase a home-site in an undeveloped area where initial prices are lower. If there are no municipal water and sewer services, a well and septic tank system must be installed.

By so doing you will have an improved lot and the cost may still be lower than the cost of a serviced lot. However, if the municipality decides to extend water services into your area at a later date you will then be faced with duplication of these expenses since you will be required to pay your share of the cost through taxes.

WISE TO CHECK

In considering an unimproved lot it is wise to check with municipal authorities on this point.

Buying an improved lot does not mean that you will not have to pay your share of the cost of existing services if they have not yet been fully paid for. Find out if there are local improvement taxes to be met or if the charge against your property will be included in its purchase price.

Only after all of these items have been investigated can a family planning home-ownership make a wise choice between buying a lot in a new or a well-established community.

BE SURE FIRST

Certainly you should not undertake to purchase a building lot until you are fairly sure of your immediate home-building plans.

There are many cases on record where a family in a moment of enthusiasm has purchased a lot with the intention of some day using it for a house. Immediate building plans not being possible, the land is left idle, never becoming an asset as taxes must be paid periodically.

Moreover, the owner finds that the circumstances or tastes have changed when he is ready to build and the original lot no longer appeals to him. Forced sales of such land can, in most cases, be made only with considerable loss.

DECIDE PRICE

Assuming that you now have a fair idea as to the type of house you want and the price you are willing to pay for it, the next step is to determine the suitability of

available lots in the neighborhood you have selected.

This does not mean that you should make a definite decision on a particular house plan before choosing a site for only after a lot has been selected can your architect plan which is in accordance with your tastes and requirements and, at the same time, most appropriate to the location.

Cupboard Tips Save Trouble

Nearly unthinkingly Canadian housewives believe their cupboard space is inadequate, reports the latest "Canadian Housewife" survey.

If you're planning to add extra cupboards, here are some practical tips from kitchen authorities. First, locate basic cupboards in close proximity to the sink, above and extending on either side as handy storage for dishes and utensils. Lower cupboards give additional storage and also provide a convenient work surface.

As far as possible, built-in cupboards should be designed to join up the three work centres—refrigerator, sink, and stove.

Make sure that all cupboards allow space at the front to prevent awkward leaning forward when standing to work. Also, since the smart housewife aims to perform many of her household tasks, don't forget that tall kitchen stools at a section of the cupboard whose table top leaves free space beneath.

WATCH WIDTHS

It is always advisable to carry upper cupboards flush with the ceiling to prevent the top ledge being a dust-catcher.

Watch your measurements, especially shelves, in width, and from eight to 12 inches apart for ordinary dishes and utensils. Turned, cups and other small pieces fit neatly into shelves six inches wide and six inches apart.

Unless the home is very large or on a farm where food is brought in large quantities, sufficient cupboard space should do away with the need for a pantry.

Often the old pantry can be converted into a part of the kitchen, to serve as a breakfast room. Or when working in roomier done in the kitchen, make it into a convenient corner with washing and ironing equipment stored ready for use.

This unusually attractive home employs shingles, combined with brick at the base of the front exterior. The large bay window, the corner windows, and the front bedroom casement windows prove how interesting and inviting a judicious combination of windows may be. The living and dining area extends the entire width of the house, opening on a large porch at the rear. The three bedrooms are all easily accessible through the central hall.

Ceiling Height Needs Careful Thinking Out

In planning a home, careful thought should be given to ceiling height, according to building authorities. Ceiling heights should be in keeping with style and use of the room and in proportion to its size. If the rooms are small, a height slightly less than average should be used to make the room appear larger. If large, an increased height will add to the appearance of the room.

8 FT. GENERAL
A ceiling height of eight feet is generally satisfactory for the average home. From a practical standpoint the ceiling height should be sufficient to provide adequate headroom and free circulation of air.

Low ceilings are desirable from the standpoint of heating economy, especially in areas where heating costs are important considerations. It is a general belief that high-ceilinged rooms are cooler in summer than those having a low ceiling.

There is no important nutritional difference between sugar and honey.
